While the District continually strives to minimize construction impacts to adjacent neighborhoods, we also recognize the likelihood of increase noise levels during construction due to the need of specialized heavy construction machinery and equipment. In addition Market St. may be closed on certain days. We ask the community to please find alternate routes for the morning and afternoon school commute to avoid Markets St.

The District would like to thank you in advance for your understanding and patience during construction of the new Main Street Middle School project.

If you have any general questions about this project, please feel free to contact Fernando Nieto, Facilities Director or Julia Delatorre, Project Secretary at (831) 678-2180.
