This is a message on behalf of Superintendent, Tim Vanoli:

*"Dear Soledad USD Community:*

*We just learned this morning of a social media threat that is going around on Facebook that threatens a school with the acronym SHS. We have confirmed with another local high school with the same acronym and local law enforcement that this is not related to a school in California. If we hear of any other information we will message this out to families and staff.*

*As always, the safety of our children and staff members is a top priority, and we will continue to communicate as quickly as we can on issues that come to our attention. Your assistance in sharing messages you hear is also helpful so we can quickly investigate and get information to everyone in a timely fashion.*

*If you have any questions, please contact your school principal."*

*Timothy J. Vanoli, Superintendent*
