# Welcome to the Hartnell College Soledad Education Center

## Background

The new Soledad Education Center was made possible by voters' approval of Measure T, a \$167 million local bond measure, in 2016. That support allowed the Hartnell Community College District to build the Soledad center; double the size of its existing center in King City, also newly completed; and build a third center in Castroville, scheduled to open in spring 2022. Other Measure T projects include a new Center for Nursing & Health Sciences on the Main Campus in Salinas, to be completed this fall, and a new building for career-technical programs on the Alisal Campus in east Salinas.

## About the Soledad Center

The 16,750-square-foot multipurpose education center was completed in spring 2021 on 3.7 acres on the northeast corner of Metz Road and Orchard Lane in southeast Soledad. The City of Soledad sold the land to Hartnell College for just one dollar. The building includes four classrooms, wet and dry science laboratories, a Student Success Center, Community Room and outdoor courtyard. Its angular exterior design is meant to evoke the ridges of the nearby Pinnacles National Park. The City of Soledad is developing the new Orchard Lane Park just north of the center.

## Academic Programs

Students will begin attending classes at the Soledad center this fall. Additional courses will be offered for the Spring 2022 semester and in future semesters, as the center – and its counterparts in King City and Castroville – become a vital educational hub for the Salinas Valley.

Anticipated academic offerings include Administration of Justice, the Teacher Pathway Program, Plant Science, Business, Public Health, Early Childhood Education and English as a Second Language, as well as a variety of General Education courses, including laboratory sciences.
